CAREER OBJECTIVE:

To leverage my DevOps engineering experience to drive innovation and improve operational efficiency for a progressive organization.

OBJECTIVES:

AWS DEVOPS

- Having 5 years of experience in **Vitech Systems Asia Pvt Ltd** as AWS DevOps Analyst & recently **MAJESCO** acquired us and working as Senior Associate Engineer.
- Working experience on EC2, EBS, S3, BAMBOO, DOCKER, JENKINS, GITHUB, JIRA, SERVICE NOW, HONEYCOMB OTEL, SPLUNK, DATADOG and Amazon Cloud Watch.
- Continuous monitoring production servers by creating rules and alerts using New Relic Monitor.
- Configured the custom metrics like Memory and VPN logs to AWS Cloud Watch.
- Responsible for creating/provisioning new on-demand **EC2** instances for every new application/Projects.
- Hands-on experience with various AWS services like: VM's, Load balancer, traffic manager, S3(storage buckets), RDS, EBS (Elastic block store), IAM (identity access management), container registry, Auto Scaling Groups, ROUTE53, NLB, INGRESS, ALB.
- participated in many GO-LIVES.
- Having experience of ECS fargate services.
- Created production servers in Amazon EC2, Elastic Beanstalk.
- Created multiple database clusters in RDS.
- Performed various operations in GIT & GITHUB by creating workflows.
- By using the AWS Trusted Advisory Security audit and Cost Optimization is performed on a monthly basis to generate reports and take appropriate action as per client approval.
- Experience in designing and implementing automated CI & CD pipeline using Jenkins jobs & Bamboo plans.
- Created automated pipelines by using Ansible playbooks.
- Experience on Terraform, Kubernetes to deal with microservices & patching activities.
- Participated in release level discussion & gone through project life cycle (SDLC)
- Used various Linux commands for deploying & starting the applications.
- Creating Custom **AMI**'s and **AMI** tags, modified AMI permissions.

CERTIFICATION:

- Having certification on AWS CLOUD PRACTITIONER, AWS Certified Solutions Architect - Associate certificate
- Having certification on GIT.
- I am currently doing certification on KUBERNETES.

PROJECT DESCRIPTION:

Vitech Systems (V3) is a **product-based** company which deals Insurance, Investment and Retirement, so our clients which I have mentioned are using same product in their software. We have clients such as PRUDENTIAL, GOLDMAN, MANULIFE, LFG, TRUSTMARK, PACLIFE, STANDARD, 32BJ, CFAO etc. We create applications and monitor those by using monitoring tools. We keep in touch with clients for day-to-day updates and modifications in the projects.

Academic Qualifications:

Course	Institution	Year	Percentage
B.Tech(CSE)	Jyothishmathi Institute of Technology and science, Karimnagar	2016-2020	71%
Intermediate (MPC)	Alphores Junior College, Karimnagar	2014-2016	75%
S.S.C	SSR Concept School, Thimmapur	2014	8.7(G. P. A)

Technical skills:

- I have knowledge of Kubernetes for managing large containers. Ex: microservices.
- Operating system: windows, Linux
- Version control system: Git, SVN repository
- Knowledge on monitoring tool data dog.
- Storage: Amazon Aurora.
- Monitoring Tools: Prometheus, Splunk.
- Hands-on knowledge on software containerization platforms like Docker and Microservices.
- Experience of major cloud service provider like AWS(EC2), RDS clusters, Load balancers, Route53, Auto Scaling groups.
- Hands on knowledge on PODS, KUBLET, HELM, ETCD, INGINEX.

Personal Profile:

- S/o : Guntuka Ramesh
- Gender : Male
- Marital Status : Married
- Nationality : Indian
- Languages Known : Telugu, English, Hindi
- Date of Birth : 06-10-1998
- Address : Vill/Mdl. Thimmapur, H.no. 3-86/18, Dist. Karimnagar, 505527

Declaration:

I hereby certify that all the above-mentioned details are true to the best of my knowledge.

Place : Karimnagar

Yours faithfully,

(ABHILASH GUNTUKA)
